EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 7 line 2 "an" has been changed to --a--;

In claim 10 line 10 "the" (second occurrence) has been changed to --an--.

Note: these changes are being made to correct minor informalities in the claims.

Allowable Subject Matter

2. Claims 1-10 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest the specific arrangement for a fluorescence illumination/observation apparatus which satisfies the relationship for the numerical

apertures and/or refractive index of the specimen medium as set forth in the claimed combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Koyama, Tsien, Kain, and Kawasaki all show various arrangements for fluorescence illumination/observation devices, but do not teach or suggest the relationship for the numerical apertures and/or refractive index as noted above.
